

University of Colorado Boulder

Anticipated Graduation May 2028

College of Engineering and Applied Science | B.S. in Creative Technology and Design
Minor in Business, Leeds School of Business
Chancellor's Achievement Scholarship

Skills

Design: Photoshop, Illustrator, InDesign, Figma, typography, UX/UI design

Fabrication: Onshape CAD, 3D printing, laser cutting, woodshop, prototyping

Media: Premiere Pro, Lightroom, video production, photography

Employment Experience

Camp Kawaga, Minocqua, WI | Camp Counselor, Camping Team & Video Producer

Summers 2023-2026

Counselor

Summer 2023, 2024, 2025, 2026

- Responsible for the management and safety of 6 to 12 campers ages 8 to 10, with close attention to mental health and the creation of a positive environment, 24 hours a day for 8 weeks
- Accountable for providing instruction focusing on safely executing skills in waterskiing, swimming, archery, and numerous sports, addressing varying developmental levels for groups of kids ages 8-16

Camping Team

Summer 2023, 2024

- Collaborated with a team to coordinate logistics for 14 camping trips, including locations, food, equipment, and travel for up to 35 participants per trip
- Contributed to the decision making process for new equipment purchases and helped restructure the planning program to ensure camper safety and support skill development
- Developed and taught curriculum for outdoor education programs and spearheaded the development and execution of an advanced outdoor program for older campers
- Served as a team co-lead for multiple wilderness camping trips ranging from overnight to week-long outings for groups of 8 to 25 campers, ensuring a safe, memorable, and enjoyable experience for all participants

Video Producer Summer 2026

- Produced and edited promotional and program videos for Camp Kawaga while also serving as a full-time counselor
- Filmed and edited content in Premiere Pro, delivering two videos for the camp's social media

Relevant Coursework

Materials Studies and Practice

Fall 2026

- Complete weekly projects, each focused on a new material, including woodworking, sewing, weaving, ceramics, paper and fibers, plastics, and metals
- Take each project through the full engineering and design process

Design Foundations

Spring 2025

- Developed an understanding of foundational principles in design through the gestalt principles
- Developed methods of UX and UI design through weekly design challenges

Engineering Projects

Fall 2024

- Developed a prototype for a backpacking GPS system through the engineering design process, including defining the problem, research, brainstorming, prototyping, testing, and improvement. Presented final product in the CU Engineering Projects Expo 2024

Activities and Volunteering

Colorado Triathlon Team | 18-time National Championship program

- Train on a rigorous schedule to represent CU in triathlons across the country
- Participate in community service events and fundraise through volunteer hours

University of Colorado Boulder Clubs

- CU Waterskiing Team
- CU Alpine club | climbing and outdoors club

Personal Photography and Videography

- Editing videos and posting content to personal media production account @fishrose_productions on YouTube and Instagram

Hobbies & Interests

Travel | Skiing | Climbing | Cooking | Photography
